

# CONSERVATION OF PIR SARHANDI TOMB MATYARI

The tomb is built in the tradition of Multani architecture, the tomb is constructed with clay bricks. It is vertically divided into three portions: the base, the middle (octagonal prism) with eight turrets and four windows, and a circular dome with four lighting shafts. The entrance of the tomb is from the east and it has two additional doors in the north and south. The eastern entrance has a main door with a bucket arch, where it has two small doors with rowlock arches. The doors on the north and south sides have traditional Tudor arches.
